

For the last 25 years, Group Coordinators has been dedicated to providing educational experiences that will enhance the curriculum taught in the classroom by providing a variety of tours that allow students and teachers to apply their knowledge in the classroom, to "real life" experiences. Our educational tours cover a wide variety of disciplines and are designed to complement state standards and the federal mandate, "No Child Left Behind." In addition, we offer professional growth opportunities for educators (see attached). Whether you are looking for a three hour, full day or multiple day tour, we have the capabilities and staff to provide extensive choices and opportunities. We take pride in providing educational adventures that are safe, fun and enhance learning in and out of the classroom.
